#### OFFICIAL PAPER OF THE CITY.

REPUBLICAN STATE CONVENTION,

A Republican State Convention to nominate a justice of the Supreme Court in pince of John W. Champlin, and two regents of the University in place of Charles J. Willett and Arthur M. Clark, and for the transaction of other busices, will be held at Assembly Hall, in the city of Jackson, on Tuesday, February 24, 1891, at it o'clock a. m.
In accordance with a resolution adopted at Grand Rapida, May 10, 1878, every county will be entitied to one delegate for each 300 of the total vote cast for Governor at the lass election (November, 1890), and one additional delegate for every traction amounting to 300, but each organized county will be entitled to a seat in the convention who does not reside in the county he proposes to represent.

present.

In compliance with a resolution adopted in betroit, June 23, 1800, the secretary of each county convention is requested to forward to be secretary of the State Central Committee com 6, Butler block. Detroit, by the earliest rail, after the delegates are chosen, a certical list of such delegates as are entitled to task in the State Convention from their resective countles.

In the above convention counties in the lith Congressional district will be entitled to elegates as follows: Allegan, 16; Ionia, 16; ttawa, 13, and Kent, 47.

THINGS are red hot in Chili.

THE "silver" lining to Ingalls' cloud did not illuminate his pathway through the devious ways of a re-election, to any appreciable extent.

Some of the "ins," under Gov. Winans' administration, are just as unhappy as the "outs." Railroad Commissioner Whitman is kicking because the Governor took it upon himself to name the deputy commissioner.

Twe American hog is said to have won a victory in Germany. There is a probability of the rescinding of the discrimination against him, by the Reichstag. That benorable body might as well take down the fence or he will root under it.

WHETHER Robert Ray Hamilton is alive or dead will not affect the world's destiny a great deal. If he has gathered strength from his weakness and, in another clime, under another name, can lead another life, it is best that his former self should be dead.

THE whole country-even the Democracy that has profited by its weakness -has little respect for a Senate that hasen't back-bone enough to choke off its own tiresome talk. Let us hear no more of old woman's tea parties or "ben" conventions. The United States Senate can out-talk all of them.

AFTER all the howl made about the numerous employes in the Legislature of 1887, no one has noticed, after the most careful inspection of the present one, any reduction in the number. This is simply another instance of the lack of correspondence between Democratic campaign howls and their postelection practices.

THE Suffolk, N. Y., Bulletin wants the young Democrats to "form clubs, organise, discountenance all dirty political methods, bury all past dissensions and make a fight on principle for candidates who had better as a general thing be new men." That would be a fine thing for the country, but it would split the party wide open.

Two precent Legislature will accomplish one good piece of work, if it succeeds in perfecting legislation that will get rid of the old special railroad char-ters. The bills introduced by Representative W. B. Jackson, of Wayne county, to carry out the ideas of the late Railroad Commissioner, John T. Rich, will doubtless be warmly con-

Is anticipation of the passage of Representative White's bill to create the ffice of State Commissioner of Building and Loan Associations, the Truecass-Heasto wishes to suggest the genial "At" for the place. To be sure. a little constitutional provision stands in the way, but it has been twisted once siready to accommodate one of his party, and will stand another twist.

Ir had been hoped that, in the mad State, the present State Librarian would be left, especially after the Democrate first choice, Mrs. Custer, Democrate' first choice, Mrs. Custer, declined the appointment. But it present that her neck is already bared to you have brill never attempt the struggle if you have Dr. But's Cough Spray sear you.

nation. The Democracy will take ad-antage of his skill and experience uring the motion of the Legislature, ut will set her adrift soon after adtrament. It is cafe to may that no topartment of the State government found its way into the hands of the Democracy in better shape than the State Library will, when Mrs. Tenney urne it over to her successor.

A sect to strike at the trame puis nice has been prepared for introduc-ion into the New York Legislature. Its provisions permit any town in the state. acept in the county of New York, to buy and equip a tramp stockade or farm, and to hire a superintendent and satistants, if necessary, where vagrants shall be confined at breaking stone or ther useful and distasteful labor. Boards of Supervisors are required by the bill to grant permission, to towns desiring to avail themselves of it, to orrow money for buildings and plant, while the other expenses are also made a town charge. As soon as it gets fairly into the Legislature, some third-rate statesman will discover that the tramp is a much-abused victim of untoward circumstances, and that this kind of rislation is directed against the poor for the benefit of the rich. That is about the history of the "tramp" bill in Michigan a few years since.

"It is well enough to crow, when you get out of the woods," is a homely old maxim, which the Republican party will do well to consider. That party conducted the war against the Union to glorious issue. That was a struggle arising out of the extravagant claims set up by the believers in state rights. The overwhelming defeat of that faction led Republicans to think that doctrine was forever set at rest. But the recent failure of Congress to enact a law to enable the United States to protect the honesty and purity of its own elections not even asking to meddle with state elections-shows that we are far from being a Nation at home. The United States can only sit still and beg the state authorities to let it have an honest election. A large proportion of her citizens can be bulldozed out of the right of suffrage by the very states that profit, in the way of Congressional and electorial representation, by their votes. The doctrine that the state is superior to the Nation-that a part is greater than the whole-is far from dead yet. The Republican party thought it had killed the snake, but did not, like the shrewd boy, stand by to see whether the tail stopped wriggling. The boy's prudence is the best.

Rapid Work on Dailies. "The retired newspaper compositor who expressed wonder in the Republic recently at the rapid and artistic manner in which advertisements are set for daily papers of the present age would have found further cause for astonishment had he been in the Republic composing room on Friday evening of last week, said an employe in that department. "During the afternoon of that day there came copy for an advertisement from a large jewelry house to make four pages of the next morning's paper, and by 12 o'clock at night the papers were ready for the press. When it is considered that there were hundreds of cuts in the ad., some partitude and of such patterns as to remortised and of such nature as to require great care in their justification, and the fact that but few men could work at a time on it to advantage, and that the ordinary run of advertising matter was attended, I think it remarkable even in these days of progress."-St. Louis Republican.

A Thief and a Liar.

Judge Burlingame sentenced Charles Miller to the county jail yesterday, for 30 days, on conviction of larceny. The convict went into a lady's room on Canal-st. last November, and took therefrom a ring which he swore was presented to him in consideration of certain things growing out of a liking which the lady had taken for him. Miller was shown to be both a thief and a liar. Solitary confinement for 30 days is about as good as a year at Ionia.

Burial Permits. The following burial permits were issued yesterday: Mrs. Alice Godfrey, Saginaw, Mich., meningitis; Patrick Carney; 30 Miller-st., phthisis pulmon-
